2.1 FOUNDER'S WELCOME

JOIN THE RAZOR GANG

I used to hate shaving. The Gillette razors I used were ridiculously expensive and the shave foams and gels I used made my skin dry and sensitive.

A few years ago, I vowed to find a better way and developed my own shaving products. I started with an all-natural shave oil, followed by an Aloe Vera based shave gel. It took time to get the products right, but I wholeheartedly believe that they are as good if not better than anything on the market.

Of course, a great shave needs a great razor too. A few years ago we launched a razor and made the decision to start selling online, to save customers time and money.

Building a website and its underlying architecture has been a big and expensive learning curve, but we plugged away and over the past couple of years we focused on building a very scalable business.

Assembly and fulfillment have been outsourced, allowing us to keep our fixed costs low. By outsourcing these activities to Beehive Industries, a Not-for-profit Social Enterprise, it has created a unique opportunity to combine 'profit with purpose'. The revenue our business

generates for Beehive enables them to support seniors and persons with disability.

The one area that needed further improvement was our razor. Last year we launched the OSCAR 2.0, which has been extremely well received. We now have a 4.8 star rating from over 2,000 reviews and are the highest-rated razor on Product Review!

Our mission now is to get every Australian to sample our razors and shave products and decide if they really need to go back in the supermarket and pay more.

To achieve that objective we need to spread our message loud and wide through Online (digital and social) and Offline (TV and radio) channels, which requires a big investment. Unlike our competitors, we are not owned by a multinational corporation, with a huge marketing budget.

Instead, we want to give our customers, the millions of Australians men (and women!) who shave, the opportunity to come on board as shareholders and 'Join the razor revolution'.

Thanks for your time to consider investing in OSCAR Razor.

2.3 DESCRIPTION OF THE BUSINESS

WHO ARE WE?

OSCAR is a direct-to-consumer (DTC) brand, selling razors and complementary shaving products via its website to customers all over Australia on subscription or on demand.

The company was founded by Oscar de Vries, an entrepreneur with extensive experience in the retail and wholesale industry, producing its own range of shaving products under the OSCAR Natural brand.

We are the one-stop shop for cost-conscious and time-poor men (or women) with our convenient 'set and forget' subscription model.

The business and brand have been developed over the past few years and with an all-new product launch we are now ready to scale. We are based in Darlinghurst, close to Sydney's CBD.

OSCAR uses a local Social Enterprise for all its assembly and fulfilment services, ensuring that part of our revenue goes back into much-needed Community Services.

OUR BUSINESS STRATEGY

OUR BUSINESS STRATEGY IS FOCUSSED ON BECOMING THE SHAVING BRAND OF CHOICE FOR OVER 3M AUSTRALIANS USING 'SHAVING SYSTEMS' (NON-DISPOSABLES)

The men's shaving market is estimated to be worth close to \$250M in Australia with over 3M men using 'shaving systems', ie. non-disposable razors.

The market has been dominated by Gillette, the world's biggest razor company, with most of its sales through the major supermarkets. With little competition, it has been able to keep prices high. And every time a new model razor with an extra blade was introduced, prices increased.

However, the past decade has seen an unprecedented change in how consumers buy the products of their choice. No longer are major retailers able to dominate what customers buy.

Customers can now buy what they want, when they want and where they want. The customer is truly king now.

The rapid development of E-commerce platforms has been the catalyst, allowing anyone to put their product or service out there.

Previously, retail distribution was a critical component of a brand's strategy.

By selling direct to end-users, we are able to offer lower prices. Customers save money and time with the convenience of home delivery.

In 2012 Dollar Shave Club was launched in the US and grew rapidly at a time when consumer sentiment post-GFC turned away from paying too much for everyday items like razors. That coupled with huge access to funding in the US market, allowed it to grow rapidly to 3M subscribers.

Just 4 years later Unilever paid \$1Billion for Dollar Shave Club. The startup has now become part of the corporate establishment.

We want all Australians to experience the cost and time savings of shaving with OSCAR products. In doing so, we aim to

develop a profitable business that keeps its profits in Australia. The conversion into a public company is part of our business strategy.

To get critical mass our focus is on revenue and growth over profit for the next 3 years. All profit and investment is reinvested in the business to ensure we hit our subscribers targets.

Part of our ambition is to take the OSCAR brand into international markets, leveraging the combination of our Australian made skincare products and American made razors.

OUR BUSINESS MODEL

DELIVERING BEST VALUE, QUALITY AND CONVENIENCE FOR OUR CUSTOMERS

Keeping our costs low is one of our key objectives.

We look at every aspect of our business to see if we can identify lower costs without compromising our customers or the business itself. Assembly and fulfilment are outsourced to a third-party.

As part of our objective to 'give back where we can', we use Beehive Industries, a not-for-profit Social Enterprise in Sydney, providing a community for the elderly and long-term unemployed living on their own.

The revenue this generates for Beehive Industries helps them to fund services for

more people in need. By outsourcing this work, it allows us to focus on our core areas - brand, customer acquisition, product development and customer service.

Customer service has been an area from the start where we aim to excel. The team shares a common dislike of poor customer service. We aim to resolve all customer queries or enquiries within 24 hrs.

Our business model is to sell direct to customers on subscription, but we also include the option for our customers to buy on an 'as-needed' basis, rather than locking them into a subscription.

"I LOVE THAT THE BLADES JUST TURN UP IN THE MAIL AND YOU KNOW YOU WILL ALWAYS HAVE FRESH SHARP RAZORS EVERY TIME YOU GO TO SHAVE."

SCOTT, QUEENSLAND

REVENUE STREAMS

THE SUBSCRIPTION ECONOMY

THE SUBSCRIPTION E-COMMERCE MARKET HAS GROWN BY MORE THAN 100% PERCENT A YEAR OVER THE PAST FIVE YEARS

MCKINSEY 2018 "THINKING INSIDE THE SUBSCRIPTION BOX: NEW RESEARCH ON E-COMMERCE CONSUMERS

"It's a win for the consumer, who – when dragging a trolley through fluorescent neon aisles – doesn't want to have to think about replenishing mundane, recurring items, such as cleaning products, personal-hygiene products and even toilet paper.

"Those types of staple products that we always need and always tend to run out of work really well as a subscription service ... it just turns up at the door," Dr Mortimer says.

And it's a win for the business because they are fostering a relationship with the customer – nurturing and ensuring extended loyalty – and providing a predictable, recurring source of revenue."

FOR TOO LONG, SHAVING HAS BEEN ABOUT COMPROMISE.

High-quality razors are notoriously overpriced, whilst budget solutions offer less satisfactory results.

CUSTOMER ACQUISITION

Since launch, the company has operated with a limited budget, while continuing development of its website, underlying billing platform, products and testing the best way of attracting and keeping customers.

In broad terms, our marketing takes customers through various phases:

Awareness, consideration, conversion, loyalty and advocacy.

"The closest shave since James Bond nearly lost his manhood to Goldfinger's laser"

JOHN H, SOUTH AUSTRALIA

"My Oscar subscription represents one of the most bang-for-buck deals in the market today - not just in terms of shaving. It just offers tremendous value and the new handle and blades are great. Brand name quality without the brand name price tag. Get it, you won't regret it."

ALAN Z, NEW SOUTH WALES

"I wasn't disappointed. It glided through the stubble like a hot knife through butter. My face was as smooth as an android's bottom (Star Trek reference for those scratching their heads). 4 shaves with the same blade later, and still as close as the first."

BROCK P, QUEENSLAND

MARKETING STRATEGY

Our focus is on product trial through a co-ordinated multi-channel approach of:

Our priority is developing the subscriber database, because recurring revenue delivers predictable, long term revenue. It also allows us to build direct relationships with our customers, to put us in a far stronger position than brands selling through retail.

The key metric of a subscription business is 'churn', which is the number of customers cancelling their subscription.

By helping customers selecting a plan based on 'How often do you shave', we ensure that customers receive exactly the number of razors they want.

For customers undecided we offer a trial without subscription.

"THIS OSCAR RAZOR 2.0 IS THE BEST RAZOR I HAVE EVER USED. ALONG WITH THE SHAVING GEL, AWESOME COMBINATION. THANKS OSCAR"

ROBERT C, VICTORIA

THE RAZOR

THE QUALITY OF THE SHAVE DEPENDS ON THE SHAVE PREPARATION AND THE ACTUAL RAZOR.

THE RAZOR

The quality of the razor itself is crucial. We recently introduced the 2.0, our second generation razor with an improved handle, more spacing between the blades, an improved attachment and a reverse trimmer.

The razors are manufactured in the United States by a manufacturer that has been making blades since 1906.

State of the art manufacturing technologies ensure that our quality is on par with the best in the market.

The razor handle has been customised to our specifications.

OSCAR NATURAL SKINCARE

OSCAR Natural, our proprietary range of skincare preparations, is made in Australia by a specialist contract manufacturer, using a range of natural ingredients.

Further pre and post-shave products are planned, such as a face wash, moisturiser, deodorant and body wash, to meet most everyday needs.

SHAVING OIL

OSCAR Natural Shaving Oil, featuring the finest natural ingredients, soothes and moisturises your skin while improving razor performance.

SHAVING GEL

Our Aloe Vera-based OSCAR Natural Shaving Gel gives you an incredibly smooth shave without drying or irritating your skin.

**"A RAZOR SYSTEM OF THIS
QUALITY SHOULD REALLY
COST YOU MORE THAN IT
DOES. I AM SO PLEASED
THAT IT DOESN'T. QUALITY
AND SERVICE DOES NOT
ALWAYS HAVE TO COST
YOU THE EARTH."**

PAUL R. OLD

COMPETITORS

OUR CLOSEST COMPETITORS ARE GILLETTE AND DOLLAR SHAVE CLUB. BOTH BRANDS ARE OWNED BY MULTINATIONALS.

GILLETTE

The market leader, owned by Procter & Gamble, the world's biggest consumer products company. Our quality is comparable, using similar high-quality steel and advanced blade technology, but by selling direct our prices are lower and customers save time with home-delivery.

For years they have charged a premium for their razors, because of the lack of competition. New features inevitably resulted in further price increases.

Our slogan '**Better than a man thought he could ever get**' takes aim at Gillette's famous line 'The best a man can get'.

DOLLAR SHAVE CLUB

They pioneered the direct to consumer model with cheap and cheerful razors, attracting large investments from US venture capitalist (US\$167M).

Sales grew rapidly from \$4M in 2012 to \$150M+ in 2015.

In 2016 they were acquired for US\$1B by Unilever, the world's second-biggest consumer goods company.

Razors are manufactured in Asia, which gives them a slight price advantage, but we challenge this with the slogan '**You deserve better than a dollar shave**'.

ISSUED CAPITAL

As at the date of this CSF offer document, the Company has 7,000,000 Ordinary shares on issue and there are no other classes or options on issue.

As set out below, the 7,000,000 shares are held by the company's existing shareholders.

DEBT FUNDING

To date, our activities have been primarily funded by the Company's founding shareholders.

Shares	Minimum Subscription	Maximum Subscription
Existing shares	7,000,000 (98.6%)	7,000,000 (70%)
Offer shares	100,000 (1.4%)	3,000,000 (30%)

THE CROWD-SOURCED FUNDING CAMPAIGN

Our target is to raise is \$3M from thousands of investors investing as little as \$50.

It is part of our strategy to give every day Australians the opportunity to invest in the products they love and use. Rather than see the profits go offshore with the big brand razors, they can share in our company's success.

It is important to note that if we don't raise our minimum target, the crowd-sourced funding campaign will not succeed and your investment will be refunded

2.6 INVESTOR REWARDS

EACH INVESTOR RECEIVES COMPLIMENTARY PRODUCT IN ADDITION TO THEIR SHARES.

2.8 RISKS FACING THE BUSINESS

Risk or uncertainty may result in a positive or negative outcome. Below is a description of the main risks facing OSCAR Razor Holdings Limited. Only risks that may significantly impact the success or failure of the business have been included.

An investment in the Company should be seen as high-risk and speculative. Investors should read this section carefully before deciding to apply for shares under the Offer.

There are also other, more general risks associated with the Company (for example, risks relating to general economic conditions or the inability to quickly or easily sell your shares).

The Directors of OSCAR Razor Holdings request, if you are in any doubt, if you are unsure, if you do not understand anything in this document, to consult your financial advisor.

MAIN RISKS

COMPETITION

The industry has several large incumbents. If OSCAR is unable to compete competitively it will not achieve its strategic business objectives, which would have a negative impact on its revenue and prospects.

KEY PERSONNEL

The founders are owners in OSCAR and have spent considerable time building and developing the business, the brand and its website. The business is susceptible to the untimely loss of the key founders.

Such consideration aside, they are dedicated to build on the work done to date to enhance the value of the business and its shareholders.

SUPPLY RISK

The company owns its skincare formulations and outsources manufacturing to an Australian manufacturer. This company is privately owned, profitable and has been in business for decades, so continuous supply is not a concern. The company does not manufacture its own razors, which are produced by a US manufacturer. The company relies on this company for future supply.

FUNDING RISK

The company is not yet profitable and is seeking further funding to achieve its objectives. The growth of the business depends on marketing and most of this is paid-for marketing.

We cannot guarantee the availability of funds in the future, or that the funds will be available on favourable terms. If we are unable to raise these funds, it could adversely impact the Company's business and growth.

TECHNOLOGY

The Company uses a number of software technology solutions. If any of these technologies were to fail without notice, it could interrupt the Company's ability to sell or communicate with customers. Regular back-ups are in place though to minimise this risk. In an online environment, there is always a risk of loss, theft or malfunction of customer data. While systems are in place to protect customer

data, the failure of these systems, without notice, could interrupt the Company's ability to sell or communicate with customers and meet its regulatory obligations.

POSTAL CHARGES

The company uses Australia Post within Australia for its delivery service. Any increase in postal rates will reduce the company's margins, unless it chooses to pass the full cost of any increase to its customers.

The Intermediary must close the Offer early in certain circumstances. For example, if the Maximum Subscription is reached, the Offer must be closed.

If the Minimum Subscription is not reached or the Offer is closed but not completed, you will be refunded your application money.

Investors may withdraw their application during the Cooling-off Period. Further information on investor cooling-off rights can be found in Section 4 of this CSF offer document.

The Offer is not underwritten and there is no guarantee that these funds will be raised.

3.2 USE OF FUNDS

The table below sets out the intended use of funds raised under this Offer based on the minimum and maximum subscription amounts.

The costs of the Offer include the Intermediary's fees under the hosting agreement between the Company and the Intermediary.

We expect that the Maximum Subscription amount will be sufficient to meet the Company's short-term objectives over the next 18-24 months.

If only the Minimum Subscription amount is raised, the company will still be viable, but growth will progress at a slower pace. In such circumstances, the Company may consider undertaking a further crowd-sourced funding (CSF) offer under the CSF regime.

Until additional funding is obtained, we will scale back marketing activities and product development.

Intended use	Minimum	Maximum
Marketing (70%)	\$70,000	\$2,100,000
Product development (10%)	\$10,000	\$300,000
Working capital (14.5%)	\$14,500	\$435,000
Cost of offer (5.5%)	\$5,500	\$165,000
Total Funds	\$100,000	\$3,000,000

Details of remuneration to be made to directors are itemised below:

Director	Annual salary
Oscar de Vries	\$90,000
Ellen de Vries	\$90,000
Kenn Williams	\$20,000

3.3 RIGHTS ASSOCIATED WITH THE SHARES

Immediately after issue, the shares will be fully-paid shares. There will be no liability on the part of shareholders and the shares will rank equally with the shares currently on issue.

The rights associated with the shares are set out in the Company's constitution. A summary of these rights is set out below. A copy of the constitution is available on the intermediary's platform.

VOTING RIGHTS

Each shareholder has one vote on a show of hands and, on a poll, one vote for each share held.

ELECTION AND REMOVAL OF DIRECTORS

Shareholders may vote to elect and remove directors at a general meeting by way of ordinary resolution (50%).

GENERAL MEETINGS AND NOTICES

Directors have the power to call meetings of all shareholders or meetings of only those shareholders who hold a particular class of shares. Shareholders who hold at least 5% of the votes which may be cast at a general meeting of the Company have the power to call and hold a meeting themselves or to require the directors to call and hold a meeting.

DIVIDENDS

All shareholders have a right to receive any dividends declared and paid by the Company. The directors have a discretion and may resolve to pay dividends, subject to their obligations under the Corporations Act (for example, they cannot pay dividends unless the Company's assets are sufficiently in excess of its liabilities immediately before the dividend is declared and where it may materially prejudice the Company's ability to pay its creditors).

WINDING-UP

If the Company is wound up and there are any assets left over after all the Company's debts have been paid, the surplus is distributed to holders of ordinary shares after secured and unsecured creditors of the Company. Holders of fully-paid ordinary voting shares rank ahead of other classes of shares (if any).

WHAT CAN YOU DO WITH YOUR SHARES?

Shares in the Company are considered illiquid as they cannot easily be transferred or sold. However, there are numerous possible circumstances that may create an opportunity for shareholders to exit the business.

There is no guarantee that any of the exit options will eventuate.

These include, but are not limited to:

- A trade purchase of the Company
- A listing on a recognised stock exchange (eg the ASX)
- A private equity investment in the Company
- A share buy-back by the Company

If you wish to withdraw your application for any reason (including if you change your mind about investing in the Company), you must do so within **five business days** of making your application (the Cooling-off Period).

You must withdraw your application via the Intermediary's platform as follows;

1. Log on to the Crowd88 platform
2. Go to your profile page and click on My Investments

3. Click the withdrawal button shown against your investment. Note: the withdrawal button will only display for five business days following your application

If you have any questions regarding the process to withdraw your application please contact Crowd88 via email (info@crowd88.com)

After your withdrawal has been processed, the Intermediary will refund the application money to your nominated account as soon as practicable.

4.2 COMMUNICATION FACILITY FOR THE OFFER

You can ask questions about the Offer on the communication facility available on the Intermediary's platform. You can also use the communication facility to communicate with other investors, with the Company and with the Intermediary about this Offer.

You will be able to post comments and questions about the Offer and see the posts of other investors on the communication facility. The Company and/or the Intermediary will also be able to respond to questions and comments posted by investors.

Officers, employees or agents of the Company, and related parties or associates of the Company or the Intermediary, may participate in the facility and must clearly disclose their relationship to the Company and/or Intermediary when making posts on the facility.

Any comments made in good faith on the communication facility are not subject to the advertising restrictions in the Corporations Act.

4.3 COMMUNICATING WITH YOU AS AN INVESTOR

As part of being an investor and owner of OSCAR we hope that you will be actively involved with the business not only as an investor but as a customer of our products. As such we expect to be in regular communication and we look forward to your involvement.

Our **website oscarrazor.com.au** will contain information about our progress including annual general reports.

4.4 CORPORATE GOVERNANCE

ANNUAL GENERAL MEETINGS

The Company holds an annual general meeting (AGM) each year, of which all shareholders receive notice. Shareholders have the right to attend and question the directors and management in an open forum about the management, business operations, financial position and performance of the Company.

DISTRIBUTION OF ANNUAL REPORTS

The Company provides access to the Annual Report online at the time of notifying shareholders by email of the AGM.

ANNUAL REPORT

The Company prepares annual financial reports and directors' reports at the end of each financial year and lodges these with ASIC (within four months of the financial year end). The Company has a 30 June year end and its year-end financial report must be lodged by 31 October each year.
